BIRTH CERTIFICATES ARE BONDS

REMEDIES AND SOLUTIONS TO YOUR CASH FLOW SITUATION

By Judge Navin-Chandra Naidu

Inspect the four corners of your birth certificate, and you will invariably find a name of a bank. Why is a bank’s name appearing on your birth certificate?

The simple answer is that your birth certificate is a very healthy and reliable cash-cow bond (debt instrument) which the government uses to access an endless supply of ready cash (“Quantitative Easing,” as it is technically called) knowing that you will be alive for approximately 75 years, minimum, from womb to tomb, and say you will be working as an 18-year-old till 65 (about 47 years earning an average $40,000 per year = $1.8 million dollars in your lifetime), but your birth certificate is a constant source of funds and finances for the government. You could earn MORE if you knew the TRUTH. Your birth certificate bond is usually worth a minimum of 100 million dollars. This is a toxic fallout from fractional banking where credit is king.

Solution 1: You stake a claim based on your birth certificate and demand payment from the government, specifically the Treasury. They will laugh you off no matter how many federal laws you cite and quote. They won’t bother replying your demand note. If you threaten to place a lien on the government, heck, the Secret Service might even charge you for security fraud!!

Solution 2: You issue a scrip for 100 million dollars based on your birth certificate bond. You then go to a grocery store, a car dealer, a wardrobe retail store, a realtor to purchase necessaries for yourself and your family. After paying for all these items, your scrip is now worth 99 million dollars. Do you think you can succeed in this venture although your bond (birth certificate) is legal tender? NO. The retailer will laugh you off, and may even call in law enforcement. Heightened ignorance at an all time high!

Solution 3, the only solution: You enter into a contract with an overseas bank that identifies, recognizes, acknowledges, endorses, and accepts the worth and value of your birth certificate bond. That bank agrees to accept your contract to issue an IBOE (International Bill of Exchange) at an affordable fee ($250.00 per birth certificate PROVIDED we have at least 20,000 individuals signing up) which will supply you at least 2 million dollars every year for the next 50 years. TAX FREE. The paid for IBOE from the $250.00 per Birth Certificate enters a private placement program that yields a constant cash flow. It is being done as we speak, but the doers, multipliers, facilitators, shakers, and movers are keeping their cards close to the chest and NOT marketing this concept. Those who have received their payouts are keeping mum for obvious reasons. Connect the dots, and celebrate your just deserts.
